## Mayor's Message

### Hero (noun)

1. a man of distinguished courage or ability, admired for his brave deeds and noble qualities.
2. a person who, in the opinion of others, has heroic qualities or has performed a heroic act and is regarded as a model or ideal.

In our society today we hear the word hero tossed around quite a bit to describe individuals who may or may not fit the definition above. If you had a chance to watch our West Point parade this year you might have seen a float that had "West Point Veteran's Memorial" written on the side. Whether you saw it or not I want to let everyone know of a great effort that has been undertaken in our city. Arleen and Royce Ross along with Harry Trease have come up with a great idea to honor our Veterans who live in our community. These individuals have started working on a Veterans Memorial monument to honor those "True Heroes" who have sacrificed so much for our country and the great life we all enjoy. They have put together a great committee who has some very distinguished individuals who are committed to see this monument get built. Arlene has also put an immeasurable amount of time putting together a scrap book of some of the individuals she was able to contact that are veterans in our community and I would encourage anyone who would like to look at this to contact Arleen. Details will be forthcoming on the fundraising that will take place as well as the details about the monument and where it will be placed. It is exciting to see this volunteer effort take place in our community and it is long overdue that we do what we can to remember those living among us who match the above definition.

### Fourth of July Celebration

I would like to thank all of those who participated and helped out in our 4<sup>th</sup> of July Celebration this year. What a great community event and it is made possible by our great staff and dozens of volunteers who come out each and every year to help out.

As always feel free to contact me if you have any questions comments or concerns.
